EDUCATION

Pune Institute of Computer Technology   2022-2025
Bachelor's in Computer Engineering - **CGPA: 8.81**

Government Polytechnic, Amravati   2019 - 2022
Diploma in Computer Engineering - **Percentage: 95.84%**

TECHNICAL SKILLS

Programming Languages	C, C++, Java, Python, PHP
Front End	ReactJS, NextJS, TailwindCSS, Shadcn, JavaScript, Bootstrap
Back End	Node.js, Django, CodeIgniter, RESTful APIs, Convex, Express, Mongoose, AWS
Databases	SQL, MySQL, MongoDB
Developer Tools	Git, GitHub, Bitbucket, Postman, Visual Studio, Eclipse

PROJECTS

InC'24: Full-Stack Event Management System (ReactJS, Node.js, SQL, TailwindCSS)

- Developed a comprehensive **event management platform** to streamline InC's operations.
- Key features include **event registration**, an **evaluation system** and an admin panel for managing registrations and project allocations. Integrated **JWT-based authentication** for secure access by admins and judges. functionalities for administrators to view **event statistics** and **compute results** to determine winners. ⤤

Mess Wala (Node.js, MySQL)

- Developed the **backend API** for an application to help users find nearby messes, view menus, give feedback, and notify mess owners for updates.
- Implemented **real-time updates** to enhance user engagement, ensuring **smooth communication** between users and mess owners. Integrated **map** functionality in the backend to assist users in **finding mess locations** efficiently. ⤤

Spark-Ed (React.Js, Node.Js, MySQL)

- Developed a **platform** to connect companies with students, utilizing **CSR funds** for scholarships and project funding. Built a **real-time notification service** to notify eligible students of new scholarships based on their skills and interests.

EXPERIENCE

Android Intern   Dec 2023 - Feb 2024
Eco - Cosmo   *Pune, India*

- Enhanced and updated Android applications, improving functionality and **user experience**. Collaborated with cross-functional teams to diagnose and **resolve app issues**. Managed the **Google Play Console** dashboard for app deployments and updates.

ACHIEVEMENT

- **Web Team Lead** , PICT InC'24: Led a team of 10 in developing a robust event management application, effectively overcoming challenges and driving the project to successful completion.
- Solved **450+** Data Structure & Algorithms questions on Leetcode.
- Secured **rank 189** out of **50,000+** diploma candidates in the direct second year admission.
